

IMPORTANT - READ CAREFULLY

Magnetic Sign Application Instructions

Be sure that both the vehicle surface and magnetic sign backing are clean and dry. Trapped moisture, dirt or chemicals may harm your vehicle finish.

Remove the magnetic sign from the vehicle once a week to clean vehicle surface and magnetic sign backing. Make sure both surfaces are clean and dry before repositioning, this helps prevent moisture from being trapped behind the sign which may damage vehicle finish.

Remove the sign before entering a car wash and reposition after the vehicle has dried.

The display side of the magnetic sign should be cleaned with warm water and a mild detergent soap, if necessary.

Do not store signs with one printed side against another printed side.

For maximum life, store sign flat or rolled with the printed surface on the outside of the roll and away from heat, leaving an inside diameter of at least 3". Never fold or crease the magnetic sign.

Handle your sign gently. Do not flex in cold weather.

When applying or removing in extreme cold weather, be careful as magnetic sign may become brittle.

Avoid placing your sign over trim or any surface protrusion. It will take on the shape of the protrusion, or create gaps where it is not magnetized to metal.

Magnetic signs will not adhere to any area where bodywork has been done and non-metallic filler (fiberglass, etc.) has been used.

Do not apply your sign to newly painted areas or vehicles.

Do not try to straighten magnetic sign by pulling on it while it is held magnetically to the vehicle. It may stretch the material, especially when it is hot.

The purchaser of this product is agreed that the sole responsibility of the manufacturer of the product for any claim or defect relating to the product shall be the replacement of the product should it be damaged due to imperfect manufacture, and that the manufacturer of the product does not in any way warrant the merchantability of the product or the fitness of the product for the particular purpose for which the buyer intends to use the product or any fading or damage to the article to which the product may be applied.
